- Effective Communication
- Proactive & Initiative
- High Efficiency
- Adaptability

## Languages

---

- Kyrgyz — Native
- Russian — Fluent / Professional
- English — Elementary

## About Me

---

I am a goal-oriented young Full Stack developer interested in modern technologies. After completing the 11th grade, I entered the IT industry and managed to accumulate 1 year of experience. I perform qualitatively not only the visual design of the site, but also its technical (code) part. I have the ability to get work done quickly and efficiently by working with artificial intelligence (AI) and writing effective prompts.

## Professional Experience

---

Experience and Key Projects

Education

Language Academy KK (Kyzyl-Kiya)

- Course: Full Stack Web Development (4-month intensive)
  - Comprehensive training in web technologies, site architecture design, and collaborative development.
